Name	ARNEL P. TAGUPA
Department	CCIS / IT DEPARTMENT
Major Task	Implement different user roles (admin, member)
For the Period	August 15 - 18, 2023

- **What did you do?**

In this week I Implement different user roles (admin, member and SuperAdmin). This ensures controlled access and tailored permissions for administrators and members, facilitating a secure and role-specific experience throughout the application.

- **Your observations, errors you encountered and how you fixed them, etc.**

If not set up correctly, it could lead to unauthorized access, where members might be able to access admin-only features or vice versa.

- **Provide Screenshots or evidence of the task you performed.**
